Mi10P	28.3	1,000	3/4 H.P., 115V, 1 Ph	03460087	\$7,059
Mi10P2 (2 Pass)	28.3	1,000	3/4 H.P., 115V, 1 Ph	03460088	\$9,369

**NOTES:**

- (1) Capacity ratings are based upon 96% DOP efficiency per ASHRAE 52-76 Standard.
- (2) Detergents provided are specially formulated, low foaming, non-scoring surfactants. They will clean effectively without damage or residue.
- CF = CONSULT FACTORY FOR LARGER MODELS, SPECIAL ENGINEERING OR CUSTOM MATERIALS OF CONSTRUCTION.
- \*\*\*\* Contact factory for order numbers, which may vary by model type.

FAN MODEL	(See also Mi Series for Industrial, Self-Contained with Blower Units)		
i-8HF	800-1100 CFM (22.7 - 31.1 m3/m) self-contained (variable speed motor)	03460043	\$3,116
i-8HF Spare Cell	800 CFM (22.7 m3/m), spare industrial design electrostatic collection cell	03700001	\$1,161
Wall mounting brackets	Two each, finished with hardware (loose)	02720097	\$94
<b>ACCESSORIES</b>	<b>(Consult factory for unpublished accessories or custom features as required.)</b>		
<b>INTEGRAL WASH:</b>	Inlet-side and/or outlet-side spray wash manifolds, installed	See Price List <b>W-28</b>	
<b>CONTROL-A:</b>	A manually initiated PLC designed to wash and dry the precipitator through a single, push-button control (includes solenoid valve). Staggered tier wash available at added cost.		
	<b>Type M1</b> - 800 through 1200 CFM (22.7 - 34.0 m3/m)	03380045	\$1,343
	<b>Type M2</b> - 1600 through 2400 CFM (45.3 - 68.0 m3/m)	03380046	\$1,419
	<b>Type M3</b> - 6000 through 9000 CFM (169.9 - 254.9 m3/m)	03380047	\$1,689
<b>CONTROL-A-1:</b>	Control-A modification required for use with detergent pump.	03380027	\$307
<b>BLEEDER VALVE:</b>	Required for integral wash units installed outdoors	01520036	\$272
<b>DETERGENT PUMP:</b>	Base mounted motor, pump and valve assembly.	0321****	\$2,271
<b>DETERGENT PAIL (2):</b>	5 gallon pail of formulated surfactant	03390019	\$237
<b>INITIATOR CLOCK:</b>	Used with Control-A or A-1 to provide a completely automatic wash-dry cycle of the precipitator at a selected hour, daily or weekly.	01620001	\$501
<b>REMOTE POWER PACK:</b>	Kit for wall mounting remotely located power pack(s). One kit per power pack. Includes unit mounted JIC Boxes.		
	1 High Unit (H1 = one power pack)	03290034	\$410
	2 High Unit (H2 = two power packs)	03290035	\$601
<b>HIGH VOLTAGE CABLE:</b>	30,000 volt rated. (Per foot price).	01660042	\$3
<b>THREE PHASE MOTOR:</b>	Add to above unit prices	Mi**/3	\$529
<b>PREFILTER OR AFTER FILTER RACK, INLET OR DISCHARGE PLENUMS:</b>	Price upon application		CF
<b>CHARCOAL POST FILTER(S):</b>	Price upon application		CF
<b>SPECIAL ELECTRICAL:</b>	230V, single phase power supply adder per unit, regardless of tier quantity.		CF \$392
	50Hz adder is applied per tier (i.e. H2 model requires 50Hz adder multiplied by 2).		CF \$246
	UL867 power supply, per tier adder (50 or 60 Hz)		CF \$262
<b>PREFILTER OR AFTER FILTER RACK, INLET OR DISCHARGE PLENUMS:</b>	Price upon application		CF CF

General arrangement drawings, electrical schematics or detailed submittals are available by request.

**NOTES:**

- (1) Quantity of spray wash manifolds is specified for inlet-side wash only. Double the Quantity specified for dual-sided (inlet & outlet) wash manifolds. Note, the discharge-side, 1" aluminum-mesh filter is removed if outlet-side spray wash manifolds are added. To add discharge side aluminum-mesh filters, consult factory for optional, external filter rack required.
  - (2) Sizes represent nominal copper pipe ID in inches. Residential Model pipe is Type "L" copper. Commercial or Industrial Model pipe is Type "M" copper.
  - (3) Nozzle quantity is per manifold. Each nozzle is a three-part, all brass assembly. Nozzles and spray inserts can be removed for cleaning.
  - (4) Order Number represents one each of the total quantity specified for a given model.
  - (5) Total price includes spray wash manifold installation, if the option is purchased with the original unit order. Otherwise, each manifold assembly is shipped loose with installation hardware. All units ordered with spray manifolds include base-pan drain ports. See also notes 6 & 7.
  - (6) Optional split tier designs include drainage pipe installation from each tier to a common, low point discharge connection.
  - (7) Total price includes inlet or discharge-side, over-spray baffles with plenum. Wash option for Mi-series units must be purchase with original equipment.
- CF = CONSULT FACTORY FOR LARGER MODELS, SPECIAL ENGINEERING OR CUSTOM MATERIALS OF CONSTRUCTION.

**PREFILTER OR AFTER FILTER RACK, INLET OR DISCHARGE PLENUMS:** Price upon application
